SUGAR TIP®

Hibiscus syriacus

Hibiscus syriacus 'America Irene Scott', pp#20,579, cbr#3582
5-6' tall and wide, spacing; 5-6'

Seedless Rose of Sharon!

Unlike the old 'Purpureus Variegatus' these variegated cultivars actually bloom! Soft cotton candy pink flowers appear in mid-summer while the crisp variegated foliage is attractive all season long. Sugar Tip® Gold has more golden yellow variegation and soft lavender blooms. As an added bonus, these varieties are seedless so there won't be any unwanted seedlings littering the landscape.

- NON-INVASIVE
- DEER-RESISTANT
- ADAPTABLE
- PRUNE IN LATE WINTER
- TOLERATES CLAY SOIL AND BLACK WALNUT
- USDA 5, AHS 9
- FULL SUN
- HABIT

SUGAR TIP® Gold

Hibiscus syriacus 'THEISSHSSTL' ppaf, cbraf
4-5' tall and wide, spacing; 4-5'
