PERFECTO MUNDO EPIC CORAL™

Rhododendron 'NCRX10'
ppaf
Common name: reblooming azalea

Landscape Info:	
USDA zones:	6b-9
Mature height:	3-4'/.7-1.2 m
Exposure:	Part-full sun
Irrigation:	Average

Features & Benefits:

- Huge flowers in spring, summer, and fall
- Early spring bloom, reblooms late summer until frost.
- Hardier than other reblooming azaleas.
- Semi-double flowers

PW PROVEN WINNERS® COLOR CHOICE® FLOWERING SHRUBS

Cultural info:

pH Level:	5.0 - 6.0
Nutrient Needs:	Average
EC (2:1 extract):	0.6 – 0.9
Light Level:	Moderate-high
Watering:	Low to moderate
Rooting Out Temp:	65 – 72° F/18.3 – 22.2° C
Overwintering Temp:	40 – 50° F/ 4.4 – 10° C
Sales Window:	All season; spring/summer-fall bloom
Blooms On:	Old and new wood
Trimming/pruning:	Trim 2-3 times
Vernalization:	Not required
Vigor Rating:	Average

Finish Size	Liner Size	Weeks of Active Growth to Finish
1 gallon	2 ¼" • 4" • QT	14-16 • 13-15 • 12-14
2 - 3 gallon	4" • QT	14-16 • 12-14

Grower Tips:

- Easy to ship in bloom for spring sales, or cycle-prune for in-bloom product throughout the season. Fall shipping/planting is not recommended in colder parts of its hardiness range.
- Best grown in light, fast-draining media. Run plants a bit drier and taper off fertilizer in late summer, especially in colder areas.
- Though the Perfecto Mundo series shows resistance to lacebug, scouting and standard IPM protocols are strongly recommended.
- First bloom is on old wood – dormant or spring pruning will remove these flower buds. Rebloom occurs on new wood approximately 8-10 weeks after trimming.
- Trim 2-3 times after potting to encourage a dense, well-branched and rounded plant; avoid cutting into thick stems.
- Potting a 2 ¼" liner directly to a 3 gallon container is not recommended.

NOTES:
