

PURPLE PEARLS[®]

Callicarpa x 'NCCX1' pp#26,000

Extended color season

A new cross between *Callicarpa dichotoma* and *C. kwangtungensis* with distinctive pink flowers. Purple-tinged foliage is particularly attractive in fall when very large purple-violet berries cover the plant. This vigorous plant has a distinctive upright habit. Useful for mixed borders, cutting gardens and wildlife gardens.
