

# THE VELVET FOG™

*Cotinus coggygria* 'SMNCCPP3' ppaf, cbraf

In the words of breeder Tim Wood - "It's got more smoke than a KISS concert!" Very large pink plumes develop in mid-summer, covering the waxy blue-green foliage. It's a stunning color combination. The Velvet Fog smokebush was selected for its outstanding flower production as well as its dense growth, providing a lusher look than conventional *Cotinus*.
