

WINECRAFT GOLD®

Cotinus coggygria 'MINCOJAU3' pp#30,327, cbraf

The Winecraft® series goes gold!

Winecraft Gold® smokebush lights up the landscape all season long, with waxy, high quality foliage that emerges orange before going yellow and eventually, chartreuse. In early summer, soft green flowers appear and soon transform to the pink puffs of smoke-like seedheads that endear this shrub to so many. It was selected for its dense, rounded habit, ensuring a lush, consistent appearance in the landscape, border, or even containers.

- **SIZE & SHAPE**
4-6' TALL
4' WIDE

- **SPACING** 4-5'
- **USDA ZONE** 5-8
- **FULL SUN / PART SHADE**

COMPACT | DEER RESISTANT | SALT TOLERANT | PRUNE SELECTIVELY TO SHAPE IF NEEDED
