Grower Tips:	
•	Requires impeccable drainage – use a light, fast-draining media.
•	Blooms early in spring on old wood – dormant or spring pruning will remove flower buds.
•	Trim as often as amount of new growth will allow through late July; stop pruning to allow flower buds to form for sale the following spring.
•	Allow to dry slightly between watering during active growth and keep on the dry side during dormancy.
•	Keep cool and well-watered to help blooms last as long as possible if in-bud or bloom shipping.
•	Potting a 2 ¼" liner directly to a 3 gallon is not recommended.
