

*Hibiscus syriacus*

# Purple SATIN<sup>®</sup>

*Hibiscus syriacus* 'ILVOPS' pp#28,839, cbraf

**It's seedless!**

Purple Satin<sup>®</sup> rose of Sharon is the newest variety to meet our high standards for this popular genus: pure, rich flower color; elegant, refined habit; and sterile to avoid nuisance seedlings. Large single flowers appear in mid-late summer, contrasting nicely with deep green foliage. Developed by Dr. Johan van Huylenbroeck, the breeder of Azurri Blue Satin<sup>®</sup> rose of Sharon, at ILVO in Belgium.

- **SIZE & SHAPE**  
8-12' TALL  
6-10' WIDE
