

Oakleaf Hydrangea

Hydrangea quercifolia

With its dramatic summer flowers and rich fall color, our native oakleaf hydrangea is an excellent landscape plant for foundation plantings and woodland gardens. These superior new varieties are strong growing selections with improved flower presentation.

- SPECIES NATIVE TO NORTH AMERICA
- GOOD FALL COLOR
- PRUNE IMMEDIATELY AFTER FLOWERING
- USDA ZONE 5-9
- FULL SUN / PART SUN

GATSBY GAL® *Hydrangea quercifolia*, 'Brenhill', pp#25,106, cbr#5304

Compact variety with large flowers.

GATSBY MOON® *Hydrangea quercifolia* 'Brother Edward', pp#25,413, cbr#5348

Distinctively doubled florets form a full panicle with a unique "quilted" effect.

GATSBY PINK® *Hydrangea quercifolia* 'JoAnn' pp# 27,879, cbr#5639

Showy blooms quickly transform from pure white to rich pink.

GATSBY STAR® *Hydrangea quercifolia* 'Doughill', pp#25,412, cbr#5305

Very showy doubled blooms.
