

# YEZBERRY SUGAR PIE®

*Lonicera caerulea* 'Hoka'

pp#28,593, cbraf

Common name: Japanese haskap

Landscape Info:	
USDA/AHS zones:	USDA 3/AHS 7
Mature height:	3-4'/.9-1.2 m
Exposure:	Part-full sun
Irrigation:	Average-high

Features & Benefits:
<ul style="list-style-type: none"> <li>- Yezberry® haskaps are better suited to warmer climates. They bloom a bit later than others.</li> <li>- The most compact of any haskap; ideal for residential growing and containers.</li> <li>- This variety must be pollinated by another Yezberry® variety, though both will then bear large, sweet fruits that can be eaten fresh off the plant.</li> </ul>

Cultural info:		
pH Level:	5.6 - 6.2	
Nutrient Needs:	Average	
EC (2:1 extract):	0.6 – 0.9	
Light Level:	Moderate	
Watering:	Average to moist	
Rooting Out Temp:	65 – 72° F/18.3 – 22.2° C	
Overwintering Temp:	Polyhouse, no heat (where hardy)	
Sales Window:	Spring-fall (fruit ripens in early summer)	
Blooms On:	Old wood (flowers are not main selling point)	
Trimming/pruning:	Trim 2-4 times	
Vernalization:	Required	
Vigor Rating:	Average	
Finish Size	Liner Size	Weeks of Active Growth to Finish
1 gallon	2 ¼" • 4" • QT	12-14 • 11-13 • 10-12
2 - 3 gallon	2 ¼" • 4" • QT	18-22 • 16-20 • 14-18

Grower Tips:
<ul style="list-style-type: none"> <li>• Blooms very early in the season – dormant or spring pruning will remove flower buds and the potential for fruit.</li> <li>• Trim 2-4 times the first season to develop an appealing, well-rounded form. Stop pruning in late July to allow the flower buds to form for sale the following season.</li> <li>• This smaller variety will finish as quickly as other Yezberry® varieties but will be a smaller plant.</li> <li>• Plants will most likely bloom before shipping season begins, and flowers are relatively insignificant anyway. To ship product bearing fruit, grow near any other Yezberry® variety; all plants will then develop berries. Isolation is not necessary.</li> <li>• This plant is susceptible to sunscald and should be grown with some shade. Powdery mildew may also occur; use all standard practices to minimize.</li> </ul>
NOTES:
