

SUGAR MOUNTAIN® Blue

Lonicera caerulea 'Dolce Vita' pp#26,617, cbraf

Lonicera

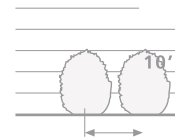

Easy-to-grow superfruit

This super-hardy native shrub is much easier to grow than blueberries, and produces abundant sweet fruit in summer. Sugar Mountain Blue was selected for its large, tasty fruit. It's a fun addition to vegetable gardens, or can be planted as an unusual hedge. For optimal fruit set, plant another Sugar Mountain cultivar nearby.
