

RED ZEPPELIN™ Goji Berries

Lycium barbarum 'SMNLBBB' ppaf; cbraf

Extra large berries | High yields | Easy to grow

It may come as a surprise that an exotic sounding, notoriously nutritious fruit like goji berry is easy to grow - but it is indeed! Red Zeppelin™ goji was selected for its extra-large fruit which makes for easier harvesting. Purple flowers in mid-summer develop into jewel-like red fruits that are bitter and tomato-like when fresh but turn sweet when set out to dry for a week or so. Very high yielding, especially in alkaline soils.

- **SIZE & SHAPE**
10' TALL
2 - 4' WIDE

- **SPACING 4'**
- **USDA 5, AHS 9**
- **FULL SUN**

NEUTRAL TO ALKALINE SOIL | ATTRACTS POLLINATORS | TOLERATES CLAY SOIL
DROUGHT TOLERANT | EDIBLE | HEAT TOLERANT
