

Physocarpus opulifolius

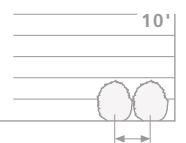

TINY WINE®

Physocarpus opulifolius 'SMPOTW' pp#26,749, cbr#5128

Colorful dwarf ninebark

Smaller than others in the market, Tiny Wine® ninebark is extra bushy with small, refined leaves. As a seedling of Summer Wine, it has good resistance to powdery mildew. Soft pinkish-white flowers cover the stems in spring, resulting in an exceptional flower display. This is a very useful little plant for adding durable color to smaller sites, and will tolerate wind, salt, and alkaline soil.

- **SIZE & SHAPE**
3-5' TALL
AND WIDE

- **SPACING** 3-5'
- **USDA ZONE** 3-7
- **FULL SUN**

SPECIES NATIVE TO NORTH AMERICA | ADAPTS TO WET SITES, INCLUDING RAIN GARDENS
