

BOLLYWOOD®

Rhododendron 'Farrow'

pp#22,209

Common name: azalea

Landscape Info:	
USDA/AHS zones:	USDA 6/AHS 9
Mature height:	2-3'/.6-.9 m
Exposure:	Part shade-sun
Irrigation:	Average

Features & Benefits:
<ul style="list-style-type: none"> - Flashy variegated azalea, with bright fuchsia flowers in mid-spring. - Semi-evergreen, though leaf margins turn rather dull in colder parts of its range. - Makes an eye-catching specimen.

Cultural info:		
pH Level:	5.6 – 6.2	
Nutrient Needs:	Average	
EC (2:1 extract):	0.6 – 0.9	
Light Level:	Moderate-high	
Watering:	Low to moderate	
Rooting Out Temp:	65 – 72° F/18.3 – 22.2° C	
Overwintering Temp:	40 – 50° F/ 4.4 – 10° C	
Sales Window:	All season; spring bloom	
Blooms On:	Old wood	
Trimming/pruning:	Trim 2-3 times	
Vernalization:	Not required	
Vigor Rating:	Average	
Finish Size	Liner Size	Weeks of Active Growth to Finish
1 gallon	2 ¼" • 4" • QT	12-14 • 11-13 • 10-12
2 - 3 gallon	4" • QT	18-20 • 16-18

Grower Tips:
<ul style="list-style-type: none"> • Easy to ship in bloom for spring sales. • Fall shipping/planting is not recommended in colder parts of its hardiness range. • Best grown in light, fast-draining media and kept on the dry side – frequent watering and less-than-immediate drainage can lead to root rot and disease. • Blooms on old wood – dormant or spring pruning will remove these flower buds. • Trim up to 3 times to encourage a dense, well-branched and rounded plant; avoid cutting into thick stems. • Run plants a bit drier and taper off fertilizer in late summer, especially in colder areas. Keep on the dry side during dormancy. • Potting a 2 ¼" liner directly to a 3 gallon can is not recommended.
NOTES:
