

# OSO EASY® Lemon Zest

Rosa 'ChewHocan'  
pp#26,914, cbr#5130  
Common name: rose

Landscape Info:	
USDA/AHS zones:	USDA 4/AHS 9
Mature height:	2-3'/.6-.9m
Exposure:	Full sun
Irrigation:	Average

Features & Benefits:
<ul style="list-style-type: none"> <li>- Disease resistant landscape rose is low maintenance and easy to grow.</li> <li>- Yellow blooms do not fade to white – very unusual in a landscape rose.</li> <li>- Glossy, high quality foliage.</li> <li>- Blooms early summer-fall without deadheading</li> </ul>

Cultural info:		
pH Level:	5.6 - 6.2	
Nutrient Needs:	Average-high	
EC (2:1 extract):	0.6 – 0.9	
Light Level:	High	
Watering:	Average	
Rooting Out Temp:	65 – 72° F/18.3 – 22.2° C	
Overwintering Temp:	Polyhouse, no heat (where hardy)	
Sales Window:	Spring-fall	
Blooms On:	New wood	
Trimming/pruning:	Trim 3-5 times	
Vernalization:	Beneficial	
Vigor Rating:	Average-fast	
Finish Size	Liner Size	Weeks of Active Growth to Finish
1 gallon	2 ¼" • 4" • QT	10-12 • 9-11 • 8-10
2 - 3 gallon	2 ¼" • 4" • QT	16-18 • 14-16 • 12-14

Grower Tips:
<ul style="list-style-type: none"> <li>• Oso Easy roses benefit from frequent light trimming, which produces an attractive habit and encourages abundant bloom.</li> <li>• Will come out of winter fine in an unheated polyhouse; however, overwintering above freezing can help you ship in-bloom product earlier.</li> <li>• May be cycle-pruned for a continuous supply of in-bloom product to ship; Allow 6-8 weeks after a trim for flower buds to form. Keep well watered and fertilized.</li> <li>• Oso Easy roses are disease resistant in the landscape, but all normal rose disease prevention methods – avoid overhead watering, clean up debris, etc. – are strongly recommended for the best crop.</li> <li>• Watch for aphids and spider mites.</li> </ul>
NOTES:
