

SUÑORITA®

Rosa 'Chewgewest' pp#31,005, cbraf

A disease resistant rose with a sunny glow

To make it through our rose trials, a plant must first show superior disease resistance. Only then do we begin to evaluate it for good looks – and this new rose has passed with flying colors. Gold, yellow, and orange colors, to be exact. A sturdy, vigorous shrub rose, it blooms perpetually on a mass of glossy, dark green foliage.
