

LACED UP™ Elderberry

Sambucus nigra 'SNR1292' ppaf, cbraf

Sambucus nigra

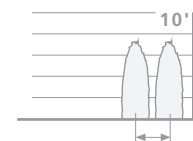

Fastigate Black Lace® *Sambucus*!

This new elderberry has the same dark purple cutleaf foliage as Black Lace® *Sambucus* but grows in a narrow, upright habit. The unusual form may twist and curve, and makes it an intriguing specimen plant for landscapes that demand something out-of-the-ordinary. It will produce large pink inflorescences in early summer, and unlike other varieties maintains its dark foliage color all season long.

- DEER-RESISTANT
- EDIBLE
- PRUNE IMMEDIATELY AFTER FLOWERING. PRUNE HARD AS A YOUNG PLANT TO DEVELOP A FULL HABIT.

- SIZE & SHAPE
6 - 8' TALL
2 - 4' WIDE
