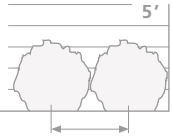
PROUD BERRY®

***Symphoricarpos* 'Sofie', pp#21,226**

Easy and unusual fall color

This is an improved version of our North American coral berry. It was selected for its compact growth and abundant bright pink berries. The prolific fruit covers this plant in late summer and fall. An outstanding addition to mixed borders, it adds unusual color to the autumn landscape.

- **SIZE & SHAPE** 3-4' TALL AND WIDE



- **SPACING** 4-5'
- **USDA 3, AHS 7**
- **FULL SUN/PART SHADE**

NATIVE | FALL INTEREST | CUTTING GARDENS | MASS PLANTINGS

DEER-RESISTANT | CUT BACK TO 1' IN LATE WINTER/EARLY SPRING
