

Syringa x

# SCENT AND SENSIBILITY™ Pink

*Syringa x 'SMSXPM'* pp#26,548, cbr#5077

## Very fragrant dwarf

This dwarf lilac is wider than it is tall, and produces copious dark pink buds which open to soft, lilac-pink flowers. It is very fragrant. While it is not as strong a rebloomer as the Bloomerang® series, it does produce flowers throughout the summer. It is an excellent choice for smaller gardens.
