

CARDINAL CANDY™

Viburnum dilatatum 'Henneke'
pp#12,870
Common name: linden viburnum

Landscape Info:	
USDA/AHS zones:	USDA 5/AHS 8
Mature height:	6-8'/2.1-2.4 m
Exposure:	Part-full sun
Irrigation:	Moderate

Features & Benefits:
<ul style="list-style-type: none"> - White flowers in spring and red fruit in late summer/fall make this an ideal landscape plant. - Bold, high quality foliage. - Plant is hardier than other linden viburnum; sets a good crop of fruit without a pollinator. Plant with Tandoori Orange® for a large crop on both. - Native to North America, deer resistant. Attracts birds and pollinators.

Cultural info:		
pH Level:	5.6 - 6.2	
Nutrient Needs:	Average	
EC (2:1 extract):	0.6 – 0.9	
Light Level:	Moderate	
Watering:	Average	
Rooting Out Temp:	65 – 72° F/18.3 – 22.2° C	
Overwintering Temp:	Polyhouse - no heat (where hardy)	
Sales Window:	Spring-fall (spring bloom, fall fruit)	
Blooms On:	Old wood	
Trimming/pruning:	Trim 3-4 times	
Vernalization:	Required	
Vigor Rating:	Average	
Finish Size	Liner Size	Weeks of Active Growth to Finish
1 gallon	2 ¼" • 4" • QT	10-14 • 9-13 • 8-12
2 - 3 gallon	4" • QT	16-20 • 14-18

Grower Tips:
<ul style="list-style-type: none"> • Fast growing, especially for a viburnum, this plant has great potential for the landscape market and can be sold the same season if in-bloom plants are not required. • Blooms on old wood: dormant and spring pruning will remove flower buds and the potential for fruit. • Grow near Tandoori Orange® viburnum for a crop of fruit on both varieties. • Vigorous plant can be trimmed 3-4 times to develop branching and fill out container; stop pruning in late July to allow flower buds to form for sale the next season. • Easy to ship in bud or bloom for spring sales. • Potting a 2 ¼" liner directly to a 3 gallon can is not recommended. • Somewhat susceptible to spider mites; scout often and treat according to your IPM program.
NOTES:
