

BRANDYWINE™

Viburnum nudum 'Bulk'

Common name: witherod viburnum

Landscape Info:	
USDA/AHS zones:	USDA 5/AHS 9
Mature height:	5-6'/1.5-1.8 m
Exposure:	Part-full sun
Irrigation:	Moderate

Features & Benefits:	
-	One of the best viburnums for multi-season appeal: white spring flowers, glossy foliage with outstanding fall color, and white, pink, and blue berries in autumn.
-	Does not require a pollinator but serves as a pollinator for 'Winterthur'
-	Native to North America.
-	Deer resistant.

Cultural info:

pH Level:	5.6 - 6.2
Nutrient Needs:	Average
EC (2:1 extract):	0.6 – 0.9
Light Level:	Moderate
Watering:	Average
Rooting Out Temp:	65 – 72° F/18.3 – 22.2° C
Overwintering Temp:	Polyhouse - no heat (where hardy)
Sales Window:	Spring-fall (spring bloom, fall color and fruit)
Blooms On:	Old wood
Trimming/pruning:	Trim 3-4 times
Vernalization:	Required
Vigor Rating:	Average

Finish Size	Liner Size	Weeks of Active Growth to Finish
1 gallon	2 ¼" • 4" • QT	12-14 • 11-13 • 10-12
2 - 3 gallon	4" • QT	16-20 • 14-18

Grower Tips:

- Grow near 'Winterthur' for a good crop of berries on both plants.
- Blooms on old wood – dormant or spring pruning will remove flower buds (and the potential for fruit) for the year.
- Trim up to 4 times, as new growth allows. Do not prune into thick stems. Stop trimming in late July to allow flower buds to form.
- Potting a 2 ¼" liner directly to a 3 gallon container is not recommended.

NOTES:
