pH Level:	5.6 - 6.2	
Nutrient Needs:	Average	
EC (2:1 extract):	0.6 – 0.9	
Light Level:	Moderate	
Watering:	Average	
Rooting Out Temp:	65 – 72° F/18.3 – 22.2° C	
Overwintering Temp:	40 – 50° F/4.4 – 10° C	
Sales Window:	Spring-fall (spring bloom)	
Blooms On:	Old wood	
Trimming/pruning:	Trim 3-4 times	
Vernalization:	Required	
Vigor Rating:	Average	
Finish Size	Liner Size	Weeks of Active Growth to Finish
1 gallon	2 ¼" • 4" • QT	10-12 • 9-11 • 8-10
2 - 3 gallon	2 ¼" • 4" • QT	18-20 • 16-18 • 14-16

Grower Tips:
<ul style="list-style-type: none"> • Vigorous and easy to grow, this plant has great potential for the landscape market. Can be sold the first season. • Blooms through spring, but highly textured glossy foliage ensures interest at retail all season. • Flowers are borne on old wood – dormant and spring pruning will remove buds for the season. Stop trimming in late July to allow flower buds to form for sale the following season. • Trim 3-4 times to create a dense plant. Trimming is important to prevent legginess in the container.
NOTES:
