Cultural info:		
pH Level:	5.6 - 6.2	
Nutrient Needs:	Average	
EC (2:1 extract):	0.6 – 0.9	
Light Level:	Moderate to high	
Watering:	Average	
Rooting Out Temp:	65 – 72° F/18.3 – 22.2° C	
Overwintering Temp:	40 – 50° F/4.4 – 10° C	
Sales Window:	Spring-fall (evergreen; spring bloom)	
Blooms On:	New and Old wood	
Trimming/pruning:	Trim 3-4 times	
Vernalization:	Required	
Vigor Rating:	Average	
Finish Size	Liner Size	Weeks of Active Growth to Finish
1 gallon	2 ¼" • 4" • QT	12-14 • 11-13 • 10-12
2 - 3 gallon	2 ¼" • 4" • QT	18-22 • 16-20 • 14-18

Grower Tips:
<ul style="list-style-type: none"><li>• Blooms through spring and can rebloom if deadheaded after spring bloom.</li><li>• Highly textured glossy foliage and blue fruit ensures interest at retail all season.</li><li>• Flowers are borne on old wood – dormant and spring pruning will remove buds for the season. Stop trimming in late July to allow flower buds to form for sale the following season.</li><li>• Trim 3-4 times to create a dense plant. Trimming is important to prevent legginess in the container.</li><li>• Susceptible to spider mites; scout often and treat according to your IPM protocol.</li></ul>
NOTES:
