pH Level:	5.6 - 6.2	
Nutrient Needs:	Average	
EC (2:1 extract):	0.6 – 0.9	
Light Level:	Moderate to high	
Watering:	Average	
Rooting Out Temp:	65 – 72° F/18.3 – 22.2° C	
Overwintering Temp:	Polyhouse - no heat (where hardy)	
Sales Window:	Spring-fall (late spring/early summer bloom)	
Blooms On:	Old wood	
Trimming/pruning:	Trim 2-4 times	
Vernalization:	Required	
Vigor Rating:	Fast	
Finish Size	Liner Size	Weeks of Active Growth to Finish
1 gallon	2 ¼" • 4" • QT	8-10 • 7-9 • 6-8
2 - 3 gallon	2 ¼" • 4" • QT	16-18 • 14-16 • 12-14

Grower Tips:

- Though weigela are fast to produce, this variety must be wintered-over if in-bloom shipping is required. For landscape or commercial sales, you can ship same-season if desired.
- Spring and dormant pruning will remove flower buds. Stop trimming in late July to allow spring flower buds to form for sale the following season.
- Trim to shape frequently to produce a dense, compact plant that has longer retail appeal. Stop trimming in late July to allow flower buds to form for sale the following season.
- Spider mites may become an issue; scout and treat as your IPM program dictates.

NOTES:
